

NEW DF60AV – HIGH ENERGY ROTATION

Way of Life!

THE ALL-NEW SUZUKI DF60 HIGH ENERGY ROTATION

EVOLUTION

One small action can have a big effect. We've taken many of the advancements in four stroke outboard motor design that we have pioneered over the last decade and brought them together into an all-new DF60.

EXCITEMENT

Our technologically advanced DOHC 12-valve engine provides the DF60 with exciting power, efficient operation and excellent fuel economy. This gives you new levels of fun and pleasure on the water.

ECO-FRIENDLY

Our Lean Burn Control System makes it possible to achieve top-level fuel economy plus the all-new DF60 is the most compact and lightest engine in the 44.1 kW (60PS) class, and less weight means less fuel consumption whilst delivering greater performance.

Available in South Africa from September 2013, subject to stock availability

NEW DF60AV – HIGH ENERGY ROTATION

Way of Life!

100
YEARS of INNOVATION

The new DF60AV 'High Energy Rotation'

-  The DF60AV 'High Energy Rotation' will be perfect for powering large, heavy craft, from family boating to commercial use
-  By adopting a newly designed lower unit with a 2.42:1 gear ratio it enables this new model to use a bigger 14-inch diameter propeller
-  DF60AVL will be available in long shaft from **25 August 2013** and stock will be available of DF60AVX (ultra long shaft) from October 2013
-  Old DF60ATL/X will be phased out
-  We are aiming to put the suggested retail price around **R 81 000 (incl. VAT)**

NEW DF60AV – HIGH ENERGY ROTATION

Way of Life!

Lightest engine in its class!

	SUZUKI DF60AV	YAMAHA FT60	MERCURY 60	HONDA BFP60
Pet name	High energy Rotation	High Thrust	Big Foot	Power Thrust
Transom	L,X	L	L,X	L,X
Weight (kg)	114 (L)	119 (L)	118 (L)	116 (L)
Gear Ratio	2.42	2.33	2.33	2.33

NEW DF60AV – HIGH ENERGY ROTATION

Way of Life!

Improved features that offer:

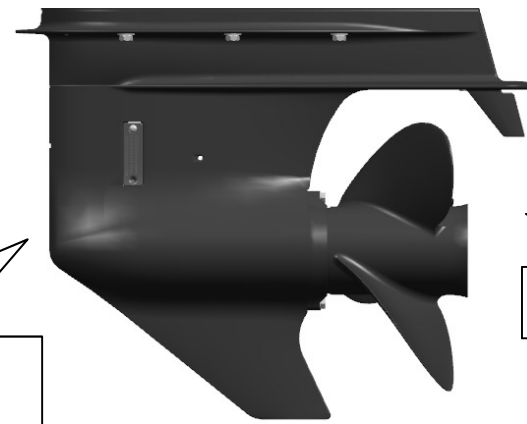

-  Excellent manoeuvring especially at low speeds
-  Better acceleration
-  Suitable for big load boats
-  Approximately 1.6 times higher thrust in forward gear compared to the DF60A and approximately 3 times higher thrust in reverse gear

NEW DF60AV – HIGH ENERGY ROTATION

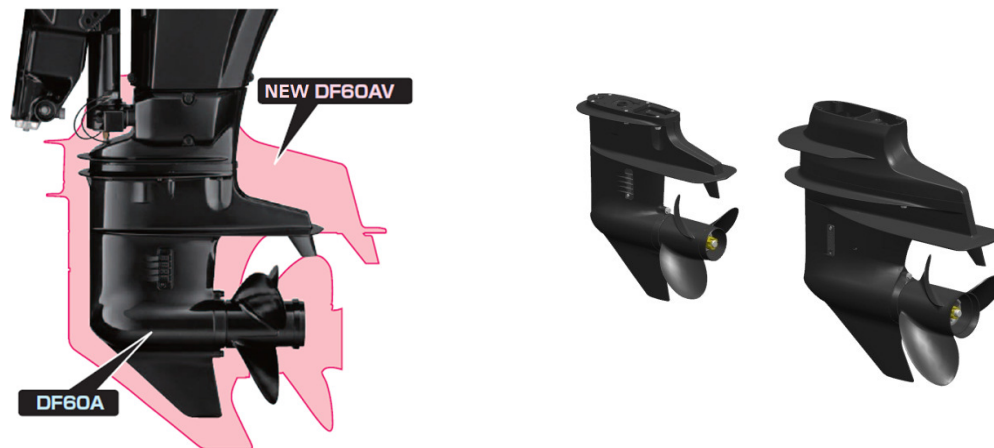

Way of Life!

Gear case - common with DF140A

Big diameter propeller 14"

Low gear ratio 2.42 by using a gear set for DF60/70

NEW DF60AV – HIGH ENERGY ROTATION

Way of Life!

 DF60AV will come standard with 13" propeller (which also fits the DF70/90)

	NEW DF60AV	DF60A
Gear ratio	2.42	2.27
Prop. size	14 inch	11.5 inch

Recommended RPM		DF60AV DF50AV	5,300 – 6,300 r/min
Propeller size		Part Number	
Aluminum	3 × 14 × 11	58100-87LH0-019	
	3 × 14 × 12	58100-87LJ0-019	
	3 × 14 × 13	58100-88LA0-019	
	3 × 13.875 × 15	58100-88LB0-019	
	3 × 13.75 × 17	58100-88LC0-019
